Abel A. Martinez Duran is excluded as the biological father of Jhankely Vargas.	
Probability of Relationship: 0.0000%	Combined Relationship Index: 0.0000

Based on results of the Twenty-three genetic systems listed below, Abel A. Martinez Duran is excluded as the biological father of Jhankely Vargas as determined by the absence of the obligate paternal allele at D3S1358, D1S1656, D10S1248, D13S317, Penta E, D16S539, D2S1338, D22S1045, and SE33. The Combined Paternity Index is 0.0000. The relative chance of Paternity, assuming a 50% prior chance, is 0.0000% as compared to an untested, unrelated man in the Hispanic population.

Deoxyribonucleic acid (DNA) isolated from the above specimens were characterized through polymerase chain reaction (PCR) at the following genetic systems:
